EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John Preta on March 19, 2004.

The application has been amended as follows:

IN THE CLAIMS

Claim 39 has been canceled.

EXAMINER'S COMMENTS

Although U.S. Patent No. 2,751,737 to Herod discloses a tool substantially similar to that of claim 33, Herod fails to disclose that the tool has an active portion projecting towards a direction of rotation. Furthermore, the prior art of record does not teach changing the tool of Herod to project towards a direction of rotation.

Claim 33, as amended, requires a tool that has a fixing end and an active (soil working) end located on opposite sides of a vertical and a horizontal plane passing through the connecting portion and also an active end that projects towards the direction of rotation. The combination of these limitations and the other structural limitations of claim 33 make the claim non-obvious over the prior art of record.
